ABOUT

I seek to build reliable software that people can depend on

I have over 5 years of experience in building web-based software, from design to production. I'm also experienced in functional programming and high-scale distributed systems

WORK EXPERIENCE

SOUNDCLOUD
2014 - PRESENT

BACKEND ENGINEER

Built a system that provides accurate financial reporting to all monetization partners and automated calculation of royalty payments, in order to accommodate growth towards +10M monetized tracks in the platform and thousands of new partners

BLUESOFT
2013 - 2014

FULL-STACK ENGINEER

Improved many different pieces of the company's SaaS ERP offering for big scale supermarket chains in Brazil, touching Stock, Supplies, CRM, Taxes and Finance, both in the backend and frontend

CALANGO MUSIC
2009 - 2013

FULL-STACK ENGINEER

Built a public-facing e-commerce solution, both backend and frontend, that drove sales up to 80% in the first year
Also built a backoffice administration system for online sales, marketing, retail analytics and financial planning

TRIARES
2009

WEB DEVELOPER

Designed and built a number of websites for small to mid-sized business
Built an in-house CMS to be offered to customers
